CARRIAGE & DELIVERY POLICY

1. Carriage Charges

- Unless otherwise agreed, a minimum carriage paid net consignment value of £250 (excl. VAT) applies to all deliveries. Consignments under this level may carry a small handling charge of £25 that will be confirmed at the time of ordering.
- Charges apply to requests for timed next day deliveries. Details advised at time of ordering.

2. Deliveries to Site or Locations other than the Operating Base of the Client.

In cases where delivery is needed to a place other than the premises of the ordering client (e.g. a site or contractors office), the QPSL office will seek the following information at the time of ordering:

- Customer name, address and contact.
- Details and references of product required.
- Order number and date.
- Location address for delivery. THIS MUST INCLUDE THE POSTCODE
- Name of Site Contractor or Sub-Contractor.

3. Delivery Times

- QPSL will always endeavour to dispatch goods ex-works in time to meet client delivery requirements. However, this is done in good faith since due to the many factors beyond the company's control that can affect a delivery once it has left the factory, it should be noted that the company is not liable for any consequential loss in the event of any delay, loss or damage. (Loss or damage after receipt of goods on site by a third party is a particular case in point). QPSL standard conditions of sale apply to all orders. Copies available on request.
- Should any difficulties occur with a delivery at any stage, then contact should be made with the QPSL office or local representative and assistance will be provided as quickly as possible.

All prices exclude VAT. Standard conditions of sale apply. Copies available on request. Prices correct at time of print.
